

EA-0022 - AQELYN Engineering Archive

AQELYN - EA-0022 Engineering Archive

IS-022 - AQELYN Executive Intelligence & Strategic Reporting Engine

Archive ID: EA-0022

Implementation Specification: IS-022

Component: AQELYN Executive Intelligence & Strategic Reporting Engine

Project: AQELYN

System Type: Cyber Security Operating Environment

Status: COMPLETE

Repository Impact: No top-level repository structure changes

Breaking Changes: None

Engineering Phase: Phase 3

Predecessor Archives: EA-0001 through EA-0021

Next Specification: IS-023 - AQELYN Threat Exposure & Attack Surface Management Engine

Document Control

| Field | Value |

| Publication Format | Markdown, PDF, HTML, ZIP |

| Source of Truth | MD/EA-0022.md |

| Archive Rule | Implementation Specification -> Engineering Archive -> Continue |

| Repository Rule | Fixed repository structure; no redesign |

| Completion State | IS-022 complete; EA-0022 generated |

1. Engineering Context

AQELYN is being built as a modular Cyber Security Operating Environment.

Completed engineering archive chain:

| Engineering Archive | Implementation Specification | Component |

|---|

| EA-0001 | IS-001 | AQELYN Kernel |

| EA-0002 | IS-002 | Universal Object Model |

| EA-0003 | IS-003 | AQELYN Event Bus |

- | EA-0004 | IS-004 | AQELYN Evidence Engine |
- | EA-0005 | IS-005 | AQELYN Knowledge Graph |
- | EA-0006 | IS-006 | AQELYN Trust Engine |
- | EA-0007 | IS-007 | AQELYN Mission Engine |
- | EA-0008 | IS-008 | AQELYN Workflow Engine |
- | EA-0009 | IS-009 | AQELYN Policy Engine |
- | EA-0010 | IS-010 | AQELYN Compliance & Governance Engine |
- | EA-0011 | IS-011 | AQELYN Identity & Access Governance Engine |
- | EA-0012 | IS-012 | AQELYN Asset & Configuration Governance Engine |
- | EA-0013 | IS-013 | AQELYN Risk Intelligence Engine |
- | EA-0014 | IS-014 | AQELYN Threat Intelligence Fusion Engine |
- | EA-0015 | IS-015 | AQELYN Security Operations (SOC) Engine |
- | EA-0016 | IS-016 | AQELYN Digital Forensics Engine |
- | EA-0017 | IS-017 | AQELYN Threat Detection & Analytics Engine |
- | EA-0018 | IS-018 | AQELYN Automated Response & Orchestration Engine |
- | EA-0019 | IS-019 | AQELYN Security Data Lake & Telemetry Platform |
- | EA-0020 | IS-020 | AQELYN AI Decision Intelligence Engine |
- | EA-0021 | IS-021 | AQELYN Predictive Analytics & Forecasting Engine |
- | EA-0022 | IS-022 | AQELYN Executive Intelligence & Strategic Reporting Engine |

The fixed repository structure remains:

```
AQELYN/  
■■■ archive/  
■■■ blueprint/  
■■■ docs/  
■■■ src/  
■■■ tests/  
■■■ tools/  
■■■ build/  
■■■ releases/  
■■■ scripts/  
■■■ assets/  
■■■ examples/  
■■■ plugins/  
■■■ sdk/  
■■■ api/  
■■■ README.md
```

The engineering rule remains:

```
Finish Implementation Specification  
↓  
Generate Engineering Archive  
↓  
Continue
```

No Engineering Archive may be skipped.

2. IS-022 Specification Identity

```
Specification ID: IS-022  
Name: AQELYN Executive Intelligence & Strategic Reporting Engine  
Engineering Archive Target: EA-0022  
Project: AQELYN  
System Type: Cyber Security Operating Environment  
Status: Complete  
Predecessor: IS-021 - AQELYN Predictive Analytics & Forecasting Engine
```

3. Purpose

The AQELYN Executive Intelligence & Strategic Reporting Engine provides executive-level cybersecurity intelligence by transforming operational, tactical, and strategic security data into business-oriented dashboards, board reports, regulatory summaries, mission health assessments, and executive decision support.

The engine enables leadership to understand organizational cyber posture through explainable, evidence-backed, and policy-governed reporting.

It answers:

What is the organization's current cyber posture?
What strategic risks require executive attention?
Which missions are at greatest risk?
How is overall security improving or degrading?
What trends require board awareness?
Which compliance objectives are at risk?
What executive actions are recommended?
Can all reports be explained and audited?

4. Mission

The engine shall provide:

Executive dashboards
Strategic reporting
Board reporting
Mission health reporting
Cyber posture reporting
Compliance reporting
Risk summaries
Forecast summaries
Decision intelligence summaries
KPI reporting
Trend reporting
Executive briefings

5. Scope

5.1 In Scope

Executive dashboards
Strategic KPIs
Mission health metrics
Risk summaries
Compliance summaries
Threat summaries
Forecast summaries
Executive scorecards
Board reports
Regulatory reporting
Strategic trend analysis

5.2 Out of Scope

Operational SOC dashboards
Consumer analytics
Financial accounting
ERP reporting
Business intelligence unrelated to cybersecurity

6. Dependencies

IS-022 depends on:

- IS-001 AQELYN Kernel
- IS-002 Universal Object Model
- IS-003 AQELYN Event Bus
- IS-004 AQELYN Evidence Engine
- IS-005 AQELYN Knowledge Graph
- IS-006 AQELYN Trust Engine
- IS-007 AQELYN Mission Engine
- IS-008 AQELYN Workflow Engine
- IS-009 AQELYN Policy Engine
- IS-010 AQELYN Compliance & Governance Engine
- IS-011 Identity & Access Governance Engine
- IS-012 Asset & Configuration Governance Engine
- IS-013 Risk Intelligence Engine
- IS-014 Threat Intelligence Fusion Engine
- IS-015 Security Operations Engine
- IS-016 Digital Forensics Engine
- IS-017 Threat Detection & Analytics Engine
- IS-018 Automated Response & Orchestration Engine
- IS-019 Security Data Lake & Telemetry Platform
- IS-020 AI Decision Intelligence Engine
- IS-021 Predictive Analytics & Forecasting Engine

7. High-Level Architecture

AQELYN Executive Intelligence & Strategic Reporting Engine

-
- Dashboard Engine
- Reporting Engine
- KPI Engine
- Executive Briefing Engine
- Compliance Reporting Engine
- Forecast Summary Engine
- Risk Summary Engine
- Mission Summary Engine
- Knowledge Graph Connector
- Data Lake Connector
- AI Decision Connector
- Forecast Connector
- Event Publisher

8. Functional Requirements

FR-022-001 - Executive Reporting

The engine shall generate:

- Executive dashboards
- Board reports
- Strategic summaries
- Mission reports
- Compliance reports
- Cyber posture reports

FR-022-002 - KPI Management

Support reporting for:

- Security KPIs
- Mission KPIs
- Risk KPIs
- Compliance KPIs
- Forecast KPIs

Operational KPIs

FR-022-003 - Strategic Summaries

Generate:

Threat summaries
Risk summaries
Forecast summaries
Mission summaries
Executive recommendations
Board briefings

FR-022-004 - Explainable Reporting

Every report shall include:

Evidence references
Confidence indicators
Data sources
Policy references
Report lineage

FR-022-005 - Governance

Support:

Approval workflows
Version control
Auditability
Executive review
Policy validation

FR-022-006 - Event Publication

Publish standardized events:

report.generated
dashboard.updated
briefing.completed
kpi.updated
executive.summary.generated
compliance.summary.generated

9. Non-Functional Requirements

The engine shall provide:

High availability
Low-latency dashboard generation
Scalable reporting
Explainability
Auditability
Repository stability
Backward compatibility

10. Core Reporting Lifecycle

Operational Data
↓
Aggregation
↓

11. Internal Component Architecture

The AQELYN Executive Intelligence & Strategic Reporting Engine is implemented as a modular executive reporting platform integrated with the AQELYN Kernel, Knowledge Graph, Security Data Lake, AI Decision Intelligence Engine, Predictive Analytics Engine, Risk Intelligence Engine, and Mission Engine.

12. Component Specifications

12.1 Dashboard Engine

Provides executive dashboards.

Capabilities:

- Executive dashboards
- Board dashboards
- Mission dashboards
- Risk dashboards
- Compliance dashboards

12.2 Reporting Engine

Generates strategic reports.

Supports:

- Board reports
- Executive reports
- Cyber posture reports
- Mission reports
- Strategic summaries

12.3 KPI Engine

Calculates executive KPIs.

Supports:

- Security KPIs
- Mission KPIs
- Risk KPIs
- Compliance KPIs
- Forecast KPIs

12.4 Executive Briefing Engine

Produces executive briefings.

Includes:

- Strategic overview
- Executive recommendations
- Mission impact
- Threat outlook
- Risk outlook

12.5 Compliance Reporting Engine

Generates compliance summaries.

Supports:

- Regulatory reporting
- Audit summaries
- Compliance scorecards
- Control effectiveness
- Policy reporting

12.6 Forecast Summary Engine

Aggregates forecasting results.

Produces:

- Forecast summaries
- Prediction summaries
- Scenario summaries
- Confidence summaries
- Trend summaries

12.7 Risk Summary Engine

Generates executive risk reports.

Includes:

- Enterprise risk
- Mission risk
- Operational risk
- Strategic risk
- Emerging risk

12.8 Mission Summary Engine

Generates mission health summaries.

Includes:

- Mission health
- Mission dependency risk
- Mission disruption forecast

Mission recovery state
Mission exposure

13. Universal Object Model Extensions

13.1 ExecutiveReport

ExecutiveReport:
report_id
title
version
approval_status

13.2 Dashboard

Dashboard:
dashboard_id
owner
widgets
refresh_interval

13.3 KPIRecord

KPIRecord:
kpi_id
value
confidence
reporting_period

13.4 ExecutiveBriefing

ExecutiveBriefing:
briefing_id
audience
recommendations
generated_at

14. Knowledge Graph Integration

Relationships:

Operational Data
↓
supports
↓
KPI

KPI
↓
included_in
↓
Executive Report

Executive Report

Executive Decision

15. Event Bus Integration

15.1 Reporting Events

```
report.generated  
report.updated  
dashboard.updated
```

15.2 KPI Events

```
kpi.updated  
kpi.calculated
```

15.3 Executive Events

```
briefing.completed  
executive.summary.generated
```

15.4 Compliance Events

```
compliance.summary.generated  
audit.summary.generated
```

16. Security Data Lake Integration

Consumes:

```
Operational metrics  
Historical telemetry  
Incident history  
Response metrics  
Compliance metrics
```

17. AI Decision Intelligence Integration

Consumes:

```
Decision recommendations  
Confidence scores  
Executive recommendations  
Decision history  
Learning insights
```

18. Predictive Analytics Integration

Consumes:

```
Forecasts  
Trend analysis  
Scenario results  
Prediction confidence  
Strategic outlook
```

19. Compliance Integration

Supports:

- Executive audit reporting
- Regulatory reporting
- Policy validation
- Governance reporting
- Traceability

20. Public APIs

20.1 Reporting API

- GET /reports
- POST /reports
- GET /reports/{id}

20.2 Dashboard API

- GET /dashboards
- POST /dashboards

20.3 KPI API

- GET /kpis
- POST /kpis

20.4 Executive API

- GET /briefings
- GET /executive-summary

21. Repository Impact

Implementation shall use the approved repository structure.

```
AQELYN/  
■■■ src/  
■ ■■■ executive_reporting/  
■■■ tests/  
■ ■■■ executive_reporting/  
■■■ docs/  
■ ■■■ executive_reporting/  
■■■ api/  
■ ■■■ executive_reporting/  
■■■ archive/
```

No top-level repository modifications are permitted.

22. Security Architecture

The AQELYN Executive Intelligence & Strategic Reporting Engine is the trusted executive reporting subsystem responsible for producing explainable, policy-governed strategic intelligence for executives, boards, mission owners, and compliance authorities.

Every executive report shall be:

- Explainable
- Evidence-backed
- Policy-governed

Risk-aware
Mission-aware
Fully auditable
Traceable
Executive-approved

22.1 Security Principles

Zero Trust
Defense in Depth
Least Privilege
Executive Governance
Explainable Reporting
Continuous Validation
Policy Enforcement
Secure by Design

22.2 Authorization Model

Supported operational roles:

Executive
Board Member
Mission Owner
Compliance Officer
Risk Officer
Security Administrator
Report Administrator
Auditor

All published reports shall comply with the AQELYN Policy Engine and organizational governance policies.

22.3 Report Integrity

Executive reports shall maintain:

Unique report identifier
Report version
Evidence references
Data source references
Confidence indicators
Approval state
Policy references
Publication state
Audit trail

Report history shall be append-only.

22.4 KPI Integrity

KPI records shall maintain:

KPI identifier
Calculation method
Reporting period
Data sources
Confidence indicator
Owner
Review state
Audit record

No KPI shall be considered executive-grade without data source lineage.

23. Reporting Lifecycle

23.1 Executive Reporting Lifecycle

```
graph TD; A[Operational Data] --> B[Aggregation]; B --> C[Executive Analysis]; C --> D[Report Generation]; D --> E[Approval Workflow]; E --> F[Publication];
```

23.2 Dashboard Lifecycle

```
graph TD; A[Metrics Updated] --> B[KPI Calculated]; B --> C[Dashboard Refreshed]; C --> D[Executive Review];
```

23.3 Audit Lifecycle

```
graph TD; A[Report Generated] --> B[Evidence Linked]; B --> C[Policy Verified]; C --> D[Audit Stored];
```

24. Continuous Executive Operations

The engine continuously evaluates:

```
graph TD; A[Executive KPIs] --> B[Mission health]; B --> C[Cyber posture]; C --> D[Strategic risks]; D --> E[Compliance posture]; E --> F[Forecast evolution]; F --> G[Executive recommendations]; G --> H[Operational trends];
```

25. Performance Requirements

The engine shall support:

```
graph TD; A[Real-time dashboards] --> B[Enterprise-scale reporting]; B --> C[Concurrent executive sessions]; C --> D[Low-latency report generation]; D --> E[Continuous availability]; E --> F[High scalability];
```

26. Scalability Requirements

The engine shall scale to support:

Global enterprises
Multi-region deployments
Executive reporting at scale
Large regulatory environments
Hybrid cloud operations
Long-term historical reporting

27. Audit Requirements

Every reporting operation shall generate immutable audit records.

Audit events include:

Report generated
Dashboard updated
KPI calculated
Executive briefing completed
Compliance summary generated
Policy validation

28. Failure Handling

28.1 Report Generation Failure

Report cancelled
Failure recorded
Administrator notified

28.2 Dashboard Failure

Dashboard refresh retried
Failure logged
Fallback metrics displayed

28.3 KPI Calculation Failure

KPI recalculated
Previous values retained
Audit generated

28.4 Policy Failure

Publication blocked
Policy violation recorded
Executive approval required

29. Testing Strategy

29.1 Unit Testing

Validate:

Dashboard Engine
Reporting Engine
KPI Engine
Executive Briefing Engine
Compliance Reporting Engine
Forecast Summary Engine

29.2 Integration Testing

Verify interaction with:

```
Kernel
Knowledge Graph
Security Data Lake
AI Decision Engine
Predictive Analytics Engine
Risk Intelligence Engine
Mission Engine
Compliance Engine
```

29.3 System Testing

Validate:

```
Executive dashboards
Strategic reports
KPI generation
Executive briefings
Compliance reporting
Executive auditing
```

29.4 Security Testing

Verify:

```
Authorization
Policy enforcement
Explainability
Audit logging
Report integrity
```

29.5 Regression Testing

Verify IS-001 through IS-021 remain unaffected.

30. Acceptance Criteria

IS-022 is complete when:

```
Dashboard Engine implemented
Reporting Engine implemented
KPI Engine implemented
Executive Briefing Engine implemented
Compliance Reporting Engine implemented
Repository unchanged
Testing documented
```

31. Repository Validation

Repository structure remains unchanged.

```
AQELYN/
■■■ src/executive_reporting/
■■■ tests/executive_reporting/
■■■ docs/executive_reporting/
■■■ api/executive_reporting/
■■■ archive/
```

No top-level repository modifications are permitted.

32. Engineering Summary

IS-022 introduces the AQELYN Executive Intelligence & Strategic Reporting Engine, providing enterprise executive dashboards, strategic cyber reporting, board briefings, mission health reporting, KPI management, compliance reporting, explainable executive intelligence, and policy-governed reporting.

Major capabilities include:

- Executive Dashboards
- Strategic Reporting
- Board Reporting
- Mission Health Reporting
- Cyber Posture Reporting
- Risk Reporting
- Compliance Reporting
- Forecast Summaries
- Executive Briefings
- Strategic KPIs
- Explainable Executive Intelligence

The engine integrates with all previously completed AQELYN engines while preserving repository stability, modularity, and backward compatibility.

33. Specification Status

Specification ID : IS-022
Title : AQELYN Executive Intelligence & Strategic Reporting Engine
Status : COMPLETE
Engineering Archive : READY FOR GENERATION
Next Artifact : EA-0022

Engineering workflow status:

- EA-0001 COMPLETE
- EA-0002 COMPLETE
- EA-0003 COMPLETE
- EA-0004 COMPLETE
- EA-0005 COMPLETE
- EA-0006 COMPLETE
- EA-0007 COMPLETE
- EA-0008 COMPLETE
- EA-0009 COMPLETE
- EA-0010 COMPLETE
- EA-0011 COMPLETE
- EA-0012 COMPLETE
- EA-0013 COMPLETE
- EA-0014 COMPLETE
- EA-0015 COMPLETE
- EA-0016 COMPLETE
- EA-0017 COMPLETE
- EA-0018 COMPLETE
- EA-0019 COMPLETE
- EA-0020 COMPLETE
- EA-0021 COMPLETE
- IS-022 COMPLETE
- EA-0022 READY FOR GENERATION

34. EA-0022 Engineering Objective

The objective of IS-022 was to introduce a dedicated Executive Intelligence & Strategic Reporting Engine that enables AQELYN to generate executive dashboards, board reports, strategic KPIs, mission health summaries, compliance summaries, risk summaries, forecast summaries, and executive briefings.

The engine extends AQELYN from predictive analytics into executive-level strategic intelligence and governance reporting.

35. EA-0022 Engineering Summary

The implementation specification defines a modular subsystem responsible for:

- Executive dashboards
- Strategic reporting
- KPI calculation
- Executive briefings
- Compliance reporting
- Forecast summaries
- Risk summaries
- Mission summaries
- Knowledge Graph integration
- Security Data Lake integration
- AI Decision integration
- Predictive Analytics integration
- Event publishing

The engine integrates with all previously completed AQELYN engines while preserving architectural modularity.

36. Major Engineering Decisions

36.1 Decision 1 - Dedicated Executive Reporting Engine

Executive reporting responsibilities are implemented as a standalone engine rather than embedded in SOC, Risk Intelligence, or Predictive Analytics.

Rationale:

- Clear separation of operational reporting from strategic reporting.
- Independent lifecycle and governance.
- Better support for board-level reports and executive approvals.
- Improved explainability for non-technical leadership.

36.2 Decision 2 - Executive Reports Are Evidence-Backed

Every executive report must reference source data, evidence, confidence, and policy lineage.

Benefits:

- Reports become auditable.
- Executives can trust report provenance.
- Regulatory and board reporting becomes defensible.
- Data source lineage can be reviewed.

36.3 Decision 3 - Strategic KPIs as First-Class Objects

KPI records are modeled as Universal Object Model extensions.

Benefits:

- KPI calculation becomes traceable.
- KPI history can be audited.
- Dashboards and reports share consistent KPI definitions.
- Executive metrics can be compared across time.

36.4 Decision 4 - Event-Driven Reporting Lifecycle

Report, dashboard, KPI, executive briefing, compliance summary, and audit summary events are published through the AQELYN Event Bus.

Examples include:

```
report.generated
report.updated
dashboard.updated
kpi.updated
kpi.calculated
briefing.completed
executive.summary.generated
compliance.summary.generated
audit.summary.generated
```

This maintains loose coupling between AQELYN engines.

36.5 Decision 5 - Universal Object Model Extension

New domain objects introduced include:

```
ExecutiveReport
Dashboard
KPIRecord
ExecutiveBriefing
```

These extend the Universal Object Model without modifying existing object definitions.

37. Architectural Integration Summary

| Engine | Integration |

|--|--|

| IS-001 Kernel | Runtime lifecycle and service registration |

| IS-002 Universal Object Model | Executive report, dashboard, KPI, briefing objects |

| IS-003 Event Bus | Report, dashboard, KPI, briefing, compliance events |

| IS-004 Evidence Engine | Evidence references and report support |

| IS-005 Knowledge Graph | Executive report, KPI, briefing, decision relationships |

| IS-006 Trust Engine | Data confidence and report trust |

| IS-007 Mission Engine | Mission health and mission reporting |

| IS-008 Workflow Engine | Report approval and publication workflows |

| IS-009 Policy Engine | Publication, access, and report governance policies |

| IS-010 Compliance Engine | Regulatory reporting, audit summaries, policy validation |

| IS-013 Risk Intelligence Engine | Risk summaries and executive risk reporting |

| IS-014 Threat Intelligence Engine | Threat summaries and strategic threat context |

| IS-019 Security Data Lake | Operational metrics and historical telemetry |

| IS-020 AI Decision Engine | Executive recommendations and decision history |

| IS-021 Predictive Analytics Engine | Forecast summaries and strategic outlook |

No existing engine required redesign.

38. Repository Impact Summary

Repository structure remains unchanged.

Implementation is expected within existing project directories, including:

```
AQELYN/  
■■■ src/executive_reporting/  
■■■ tests/executive_reporting/  
■■■ api/executive_reporting/  
■■■ docs/executive_reporting/  
■■■ archive/
```

No top-level directories were added, removed, or renamed.

39. Security Impact Summary

The specification introduces executive-reporting-specific security controls:

- Policy-governed report publication
- Executive approval workflows
- Evidence-backed reports
- KPI lineage
- Report versioning
- Dashboard access control
- Immutable report audit trail
- Compliance summary traceability
- Role-authorized report administration

No reduction in the security posture of existing components was identified.

40. Capabilities Added

The engine enables AQELYN to support:

- Executive dashboards
- Strategic reporting
- Board reporting
- Mission health reporting
- Cyber posture reporting
- Compliance reporting
- Risk summaries
- Forecast summaries
- Decision intelligence summaries
- KPI reporting
- Trend reporting
- Executive briefings
- Report auditability

41. Risks Identified

Risk Mitigation	
--- ---	
Incorrect executive interpretation	Explainable reporting and source lineage
KPI calculation ambiguity	KPI records with calculation method and owner
Unauthorized report access	Role authorization and policy enforcement
Report publication without approval	Approval workflows and publication controls
Stale executive data	Dashboard refresh lifecycle and audit
Regulatory reporting gaps	Compliance reporting integration
Lack of traceability	Evidence references and report lineage
Over-summarization of risks	Risk summaries linked to detailed evidence

No critical architectural risks were identified that require redesign.

42. Verification Summary

The specification defines verification for:

- Unit testing
- Integration testing
- System testing
- Security testing
- Regression testing

Acceptance criteria cover dashboard engine, reporting engine, KPI engine, executive briefing engine, compliance reporting engine, repository validation, and testing documentation.

43. Engineering Principles Confirmed

The implementation complies with established AQELYN principles:

- Modular architecture
- Event-driven communication
- Immutable evidence references
- Traceability
- Explainability
- Security by design
- Repository stability
- Backward compatibility
- Governance-before-archive discipline

44. Dependencies

Required:

- EA-0001 through EA-0021
- IS-001 through IS-021

Enables:

- IS-023 and subsequent exposure management, attack surface, vulnerability, executive governance, and strategic reporting components

45. Completion Record

Engineering Archive : EA-0022

47. Engineering Phase Status

Completed Engineering Archives : EA-0001 through EA-0022

Current Status:
EA-0022 COMPLETE

Next Implementation Specification:
IS-023 - AQELYN Threat Exposure & Attack Surface Management Engine

EA-0022 is completed and archived. The engineering workflow is consistent with the project rule:

Implementation Specification -> Engineering Archive -> Continue

From this point onward, the next engineering artifact is IS-023.

48. Engineering Archive Publication Standard

EA-0022 follows the AQELYN Engineering Archive Publication Standard.

Required package structure:

```

49. Requirements Matrix

Requirement ID	Requirement	Evidence in Archive	Status
FR-022-001	Generate executive reports	Sections 8, 12, 23	Complete
FR-022-002	Support KPI management	Sections 8, 12, 23	Complete
FR-022-003	Generate strategic summaries	Sections 8, 12	Complete
FR-022-004	Provide explainable reporting	Sections 8, 22, 36	Complete
FR-022-005	Support governance	Sections 8, 22, 23	Complete
FR-022-006	Publish reporting events	Sections 8, 15, 36	Complete
NFR-022-001	High availability	Sections 9, 25	Complete
NFR-022-002	Low-latency dashboard generation	Sections 9, 25	Complete
NFR-022-003	Scalable reporting	Sections 9, 26	Complete
NFR-022-004	Explainability	Sections 9, 22, 36	Complete
NFR-022-005	Auditability	Sections 9, 27, 39	Complete
NFR-022-006	Repository stability	Sections 21, 31, 38	Complete

50. Traceability Matrix

Source	Target	Relationship
IS-022 Purpose	EA-0022 Objective	Defines why the engine exists
Dashboard Engine	FR-022-001	Provides executive dashboards
Reporting Engine	FR-022-001	Generates executive and board reports
KPI Engine	FR-022-002	Calculates strategic KPIs
Executive Briefing Engine	FR-022-003	Produces executive briefings
Compliance Reporting Engine	FR-022-003	Produces compliance summaries
Forecast Summary Engine	FR-022-003	Aggregates forecasts
Risk Summary Engine	FR-022-003	Aggregates risk summaries
Event Publisher	FR-022-006	Publishes report and KPI events
Security Data Lake Integration	Operational metrics	Supplies historical telemetry and metrics

AI Decision Integration	Executive recommendations	Supplies decision intelligence
Predictive Analytics Integration	Forecast summaries	Supplies forecasts and trends
Compliance Integration	Regulatory reporting	Supplies audit and policy validation
Repository Validation	Repository Standard	Confirms no top-level redesign

51. Engineering Journal

Journal Entry - EA-0022

EA-0022 was created to archive completion of IS-022 - AQELYN Executive Intelligence & Strategic Reporting Engine.

The archive records the expansion of AQELYN into executive and board-level cyber intelligence. IS-022 defines the structure needed to generate executive dashboards, strategic reports, board briefings, mission health summaries, risk summaries, compliance summaries, forecast summaries, strategic KPIs, and executive recommendations.

The engineering design preserves the fixed AQELYN repository structure and maintains backward compatibility with previously completed engines.

Lessons Learned

Executive intelligence must be modeled separately from operational SOC dashboards and predictive analytics. Executive reporting translates operational and analytical data into strategic, auditable, board-consumable intelligence.

Governance Note

EA-0022 follows the master-document publication workflow. The Markdown file is the authoritative source, and PDF/HTML representations are generated from the same content.

52. Examples

52.1 Example Executive Report

```
report_id: EXR-0001
title: Quarterly Cyber Posture Executive Report
version: v1
approval_status: pending_approval
sections:
- cyber_posture
- mission_health
- strategic_risk
- compliance_summary
```

52.2 Example KPI Record

```
kpi_id: KPI-SEC-001
value: 87
confidence: 0.91
reporting_period: 2026-Q3
name: Security Posture Score
```

52.3 Example Executive Briefing

```
briefing_id: BRF-1001
audience: board
recommendations:
- increase focus on mission-critical identity exposure
```

```
- reduce unresolved high-risk vulnerabilities  
generated_at: 2026-07-07T12:00:00Z
```

52.4 Example Reporting Event

```
{  
  "event_type": "executive.summary.generated",  
  "report_id": "EXR-0001",  
  "confidence": 0.91,  
  "source_engine": "aqelyn_executive_intelligence_reporting_engine"  
}
```

53. Manifest Summary

Archive contents include:

```
README.md  
MD/EA-0022.md  
PDF/EA-0022.pdf  
HTML/index.html  
HTML/styles.css  
manifest/manifest.json  
requirements/Requirements_Matrix.md  
traceability/Traceability_Matrix.md  
journal/Engineering_Journal.md  
diagrams/Architecture.svg  
diagrams/Component.svg  
diagrams/Workflow.svg  
diagrams/EventFlow.svg  
diagrams/Integration.svg  
examples/example_executive_report.md
```

54. Final Archive Statement

EA-0022 is the Engineering Archive for IS-022 - AQELYN Executive Intelligence & Strategic Reporting Engine.

It records the completed specification, the architectural decisions, the integration model, the repository impact, the risk posture, verification requirements, acceptance criteria, archive index update, and the engineering publication standard.
