

AQELYN Final Project Audit

Result

The project has been reviewed, renamed, normalized, and prepared for implementation.

Brand

Public brand: AQELYN

Historical public use of Project Sentinel/Sentinel has been replaced in editable documentation with AQELYN. Historical Engineering Archive numbers remain preserved for traceability.

Architecture Coverage

EA-0001 through EA-0063 are present.

Implementation Status

Ready to begin coding with EA-0001.

Remaining Before Coding

No additional architecture documents are required before coding. Future additions should be created as new Engineering Archives under change control.

Strategic Objective

AQELYN shall aim to become the world's most understandable, evidence-driven, and trusted Cyber Intelligence Platform for individuals, companies, and government environments.
